DAY 1: FÈS TO CHEFCHAOUEN

We begin our scenic route drive from Fès to Chefchaouen after breakfast. We will arrive late afternoon at our hotel, in time to relax with a warm cup of mint tea and prepare for dinner. Following and weather permitting, we will hike to the Spanish mosque where we will have the best view of the city - about one mile each way; both uphill and downhill. DAY 2: CHEFCHAOUEN MEET THE FAMILY AND COOKING CLASS

A hearty breakfast and a stroll throughout the Blue City to take some Instagram-worthy daytime pictures of the area. DAY 3: AKCHOUR NATIONAL PARK AND WATERFALLS

A 45-minute drive from Chefchaouen in the Rif mountains is a paradise waiting to be explored. Today we will walk the two trails. Then, on a separate track is God's Bridge; a spectacular natural bridge, which towers over the river some hundred metres below.

A visit to the clear waters and river restaurants of Akchour and the God's Bridge is a Moroccan mountainside adventure we just can't skip! For this day, pack canvas sneakers or secure sandals with buckles/velcro as your feet will get wet!

DAY 4: A GUIDED WALK AROUND TETOUANE

Situated on the North-Western tip of Africa, Tetouan sits by the Mediterranean Sea in a beautiful valley at the intersection of two rugged mountain ranges. Tetouan's ancient walled city is a UNESCO World Heritage Site.

Tetouan's Medina has retained its authentic Andalusian soul, which makes this town the most Hispano-Moorish influenced of all Moroccan cities. This is a thoroughly atmospheric place to explore, and architectural historians regard it as the country's finest preserved Medina.

DAY 5: TANGIER

Stroll the streets of 'the White Tangier'. Just like Delacroix or Matisse did upon arrival, let yourself be carried away by the dreamy atmosphere covering the city. At the foot of the high walls of the "Kasbah", roam through the alleys of the great "Socco", and admire the fortress that dominates the Medina. A little further away, explore the "Sultan's Palace" which is nowadays dedicated to the arts of Morocco.

TUESDAY

05.21.24

DAY 6: TANGIER

We will visit Tangier renowned for the Spanish influence on its culture, starting with the arena that stands on the "Plaza de Torros", not to mention the "Cervantes" theatre built in 1913. As our last full day in Morocco, we will explore the souks and purchase last minutes gifts and items to bring home to our family and friends. Finally, we wind down our day at the legendary Hercules Caves, an archaeological cave complex and mythical grotto located in Cape Spartel, during sunset (weather permitting).

TUESDAY

Frequently Asked Questions

Q: Is Morocco Safe?

A: Yes, Morocco is a safe country. Our group will always be followed by a local guide which will help with unwanted vendor solicitation. Tourists are subject to scams and pickpockets so, caution should always be exercised. The group will be registered with the Ministry of Tourism and our locations will always be documented.

Q: What currency is used?

A: The currency of Morocco is the Dirham. Money cannot be traded outside the country so, the best option is to use an ATM in the city centre or at the airport. An NEI Representative will show you the safest bank choice when you arrive. At time of writing, 10 Dirhams = approximately \$1 USD. Euros are also accepted.

Q: Do I need a visa to travel to Morocco?

A: Our delegates coming from Canada, United States and France do not need a visa. A valid passport that does not expire within 6 months is required.

Q: What languages are spoken in Morocco?

A: Moroccan Arabic (Darija), Berber, French and Spanish (in the north). Classical Arabic is not readily spoken. English is understood and spoken. Our guide and NEI representative will translate as needed. A command of basic pleasantries in French is useful.

Q: Are souk vendors aggressive?

A: Vendors in Morocco are persuasive and relentless but, not unsafe. You may purchase items without wanting them because you were caught in a hearty debate! A firm 'no, thank you' will always work if you are not interested. Once you agree on a price, never change your mind or walk away from a sale. It is considered bad manners in Morocco.

Q: Can I make purchases using a credit card?

A: Yes, in specific shops, but you must be vigilant and watch the vendor complete the payment. Always use an automated machine requiring a pin code. Never use credit cards in street shops other than Co-Ops. Restaurants can be paid with credit cards, but make sure your bill and receipt are the same.

Q: What stores are authentic/reputable?

A: Co-Op stores must conform to the law. By purchasing products here, you are contributing to fair and ethical workplaces and wages for men and women. All the products are also guaranteed authentic and/or organic by the government.

Q: Can I negotiate in all stores?

A: Absolutely, in fact, you must! If you are unsure how much you should be spending or if you need advice, please ask an NEI Representative. Remember, the excitement in negotiating is to agree on a fair price for you and the vendor. It is not about getting the lowest price.

Q: Where should I purchase a carpet from?

A: Marrakesh or Fez and only at reputable shops. A small carpet can be found elsewhere but, be prepared to carry it with you. Also, it will have to be cleaned upon your return and there is no way of knowing if the dyes will bleed once you bring it home.

Q: Can I have items shipped to my home?

A: Pending on the item. If you would like to purchase a particular product that will require shipping, reach out to an NEI Representative. We will make certain to take you to the specific stores that will accommodate shipping requests. If purchasing with a credit card, it is common to add 5% to the cost of the item.

Q: Where should I purchase leather goods?

A: Leather goods should be purchased at the tannery shops in Fez. They are the most reputable shops and we will explain the difference between the vegetable dyes used when we arrive. Also, the leather will never have a smell (usually a manure smell due to a poor dye and quick fabrication of the leather good).

Q: What days are stores closed?

A: Friday. This is a day of rest for Moroccans. Most stores are closed in the morning and some tourist shops may open in the afternoon. We have non-shopping activities or scheduled travel days between cities on Friday. See the schedule for more information.

Q: What is the best bag to carry with me?

A: We recommend 2 brands for travel, Pacsafe and Travelon. They are sold on Amazon and also at local luggage and department stores. They are slash-proof safe and lock when closed. They will perform perfectly for travels where spaces are tight and pickpocketing can be easily achieved without the right products.

Q: What is the dress code for men ?

A: Men should never wear shorts above the knee or tank tops. T-shirts or polo style shirts are acceptable but, long sleeves in natural fibres should be considered. Clothing should be plain and in neutral colours due to the extreme climate. For different elevations, consider light layers.

Q: What fabrics are best to wear while traveling?

A: Pending on where you will be travelling with NEI Conferences, you may experience various climates at different elevations. Consider wearing clothing with natural fibres (wool, cotton and linen) or plan to wear authentic Moroccan clothing by purchasing a djellaba or kaffan in the souk.

Q: Do women have to cover their hair?

A: No. Women do not have to cover their hair. As the sun is strong, it is best to wear a baseball cap (for men as well), or a wide-brim summer hat. To protect your hair, consider bringing a light scarf that can double as a shawl when needed.

Q: What is the general dress code for touring?

A: Women and men must dress modestly.

Pack long pants or skirts which are suitable for the weather and climate. Shirts or short sleeves with a jacket or sweater as a layer is the right choice. Sneakers or comfortable loafers should be worn as many of the streets aren't paved.

Q: What is the dress code for women?

A: Knees and preferably ankles should be covered as well as elbows. V-neck, low-cut or tank tops should not be worn. Long skirts and pants are both acceptable. Clothing should be plain and in neutral colours due to the extreme climate. For different elevations, consider light layers.

Q: Can I wear my jewelry while traveling?

A: It is best to leave all jewelry and watches at home, even costume jewelry that is meant to look authentic. Both men and women should consider keeping their fingers, neck and wrists free so, they can purchase gold jewelry in the Mellah and beautiful silver and Berber jewelry throughout their travels.

Q: What weather can we expect in May?

A: Warm, dry and HOT! Pending on your travel destinations while with NEI Conferences, you may be in the south, on the coast, in the desert and in the mountains. You will need a light jacket for evenings and nights and loose clothing for the daytime. A packing list will be provided 1 month prior to travelling.

Q: What covid vaccinations are required to enter Morocco?

A: Travellers must be fully vaccinated in order to travel to Morocco. At the time of writing, this refers to 2 doses. If your last dose was over 5 months ago, you may have to show proof of an additional dose. We are working with the Tourism Board of Morocco to give you the most up-to-date information.

Q: What happens if I contract Covid?

A: The regulations are ever-changing. At the time of writing, there is no quarantine period. We have agreements with the hotels that should one of our delegates contract Covid, they can quarantine at the last hotel visited and meet up with the group upon completing their isolation if necessary.

Q: Can I be tested for Covid while in Morocco?

A: Yes, there are many private laboratories in the cities which test for Covid. Also, an NEI Representative will have Rapid Tests available.

Q: Must I wear a mask?

A: You may be asked to wear a mask when visiting certain sites. We recommend having a mask while in the souks of Marrakech as there are many motorcycles/scooters and the diesel fuel can be quite intense. May is peak season and locals and tourists will be abundant. A mask will be the best protection while travelling in confined areas.

Q: Are the guides certified?

A: Our guides are certified and registered with the Ministry of Tourism. Plus, we have vetted them ourselves and can guarantee they are trustworthy and knowledgeable. Our guides will never receive commissions for recommending or bringing you to a particular store. This will be our fourth group trip together and each person is part of the NEI family.

Q: I would like to travel before/after the conference. Can you help?

A: If you choose to travel independently before or after NEI conferences' pre and post-tours, please ask us for assistance with finding you a guide, or private chauffeur/transport. Many individuals show badges hoping to be hired but, they are not always credible.

Q: How much should I plan to tip the guide and driver?

A: Based on how many days a particular guide will be with us, we will advise you prior to your departure so you can organize and plan ahead. Tips can be paid in USD, Euros or Dirhams.

Q: Can I drink alcohol in Morocco?

A: Yes, but you shouldn't. It is more commonplace for the younger generation to drink alcohol in Morocco but, it is best you abstain while travelling. It is possible to drink in a pub that caters to tourists however, we will not be visiting any during our travels.
